PROJECTS

Finance Tracker — Tech Stack : Java, Spring Boot, Spring Security, JWT, MySQL, Spring Data JPA, React.js - GitHub

- Developed a personal finance management system that allows users to record and categorize income and expenses, set budgets, track spending patterns, and analyze their overall financial activity through an interactive dashboard.
- Implemented role-based user and admin workflows, enabling profile management, user activation/deactivation.

Employee Work Management System —Tech Stack: Python, Django, Django REST Framework, React.js, MySQL, JWT- GitHub

- Developed a full-stack employee management platform using Django REST Framework and React.js with JWT authentication, role-based access control, protected routes, and RESTful APIs for Admin and Employee workflows.
- Implemented employee, task, attendance, salary, notification, and reporting modules.

Utility Hub — Tech Stack: Java , Spring Boot, Spring Security, JWT, Spring Data JPA, MySQL, React.js - GitHub

- Built a centralized platform that brings everyday utilities such as calculations, age calculation, and text conversion into a single application. Designed separate user dashboards for accessing tools, managing favorites, and tracking user activities
- Implemented secure user authentication and role-based dashboards for managing category wise tools, and user activities

Cricket Hub IPL Manager — Tech Stack: Python, Django, Django Rest Framework, React.js, JavaScript, MySQL, JWT - GitHub

- Developed a centralized IPL platform for managing and exploring teams, players, fixtures, matches, statistics, points tables, and tournament history through dedicated user and admin workflows, providing an organized platform.
- Implemented secure user and admin access with role-based permissions, allowing users to view cricket information.

EXPERIENCE & TRAINING

Java Full Stack Training - Java Learning Center | Jun 2024 - Aug 2025 | Bengaluru

- Developed full-stack web applications through instructor-led training, gaining practical experience in Java 8, Spring Framework, Hibernate, JDBC, JSP, Servlets, MySQL, Git, Maven, HTML5, CSS3, JavaScript and React.js.

Python Full Stack Internship - Kodnest | Jan 2024 - Jun 2024 | Online

- Developed backend APIs, integrated frontend components with relational databases, and connected frontend and backend applications as part of practical full-stack web application development experience.
